

Operator Compliance Risk Score (OPT008)

Operator Licence Number: PG1099783

Score Date: 27/09/2016

Positive Events Included: Y

Version 1.0

28/09/2016 01:30

Operator Name
JUMBOCRUISER LTD

Summary Information

Type of OCRS Score	Number of OCRS Events	Total Events Points	Total Prosecution Points	Event Points plus Prosecution Points	Calculated Base Score	Calculated OCRS Band (without triggers)	Final OCRS Band (including triggers)	Active Trigger End Date
Roadworthiness	42	218.75	0	218.75	5.21	Green	Green	
Traffic	3	0.00	0	0.00	0.00	Green	Green	

Prosecution Points Summary

Type of OCRS Score	Number of Operator Cases	Number of Driver Cases	Points per Operator Case	Points per Driver Case	Total Prosecution Points
Roadworthiness	0	0	0	0	0
Traffic	0	0	0	0	0

OCRS Band Threshold Values

Type of OCRS Score	Amber Threshold Value	Red Threshold Value
Roadworthiness	10	25
Traffic	5	30

Operator Licence Number: PG1099783

Score Date: 27/09/2016

Negative Events

28/09/2016 01:30

Type of OCRS Score	Source of Data	Date of Event	Location	VRM	Driver Name	Defect or Offence Id	Defect Description	Prohibition Category or Offence Band	OCRS Points Value	Weighting Value to be Applied	Weighted Points	OCRS Event Trigger Period in Days	OCRS Event Trigger End Date
Roadworthiness	Roadside Enforcement	02/02/16	BEACONFIELD SERVICES	JU06BUS	RICHARD MARK EVANS	16	Power operated door cannot be opened manually	2	100	1.00	100.00

Explanation of Report Contents

- 1). Operator Name - This is the operator name associated with this licence number.
- 2). Type of OCRS Score - Indicates if the summary line or event is relating to the Roadworthiness OCRS score category or the Traffic OCRS score category.
- 3). Number of OCRS Events - The total number of events recorded in OCRS for the calculation period, by score type.
- 4). Total Event Points - The total number of OCRS points allocated for offences or defects over the calculation period, by score type.
- 5). Total Prosecution Points - The total number of extra OCRS points allocated for operator and driver prosecution cases.
- 6). Event Points plus Prosecution Points - The final OCRS points total (defect/offence and prosecution points) over the calculation period, by score type.
- 7). Calculated Base Score - The OCRS base score, calculated by dividing the final OCRS points total by the number of OCRS events for each score type.
- 8). Calculated OCRS Band (without triggers) - The base OCRS band, calculated by comparing the base score to the Amber and Red threshold bands for each score type.
- 9). Final OCRS Band (including triggers) - Indicates the final OCRS band, by score type, once any triggers have been taken into account.
- 10). Active Trigger End Date - If any triggers are active this indicates the date at which the last trigger will become inactive. If this is blank then there are no active triggers.
- 11). Number of Operator Cases - The number of successful prosecution cases relating to an operator during the calculation period.
- 12). Number of Driver Cases - The number of successful prosecution cases relating to a driver during the calculation period.
- 13). Points per Operator Case - The number of extra OCRS points allocated for each operator prosecution case.
- 14). Points per Driver Case - The number of extra OCRS points allocated for each driver prosecution case.
- 15). Amber Threshold Value - The Amber threshold band at the time that the score was calculated, by score type.
- 16). Red Threshold Value - The Red threshold band at the time that the score was calculated, by score type.
- 17). Source of Data - The type of event that occurred (i.e. a roadside enforcement or traffic check, a test or a prosecution).
- 18). Date of Event - The date that the event in question took place.
- 19). Location - The location that the event took place (please note that for prosecutions this will be the location of the court).
- 20). VRM - The Vehicle Registration Mark for the vehicle involved in the event.
- 21). Driver Name - The name of the driver who was driving at the time of the event (please note that this is not always captured and will be blank for prosecutions).

Operator Licence Number: PG1099783

Score Date: 27/09/2016

- 22). Defect or Offence ID - The defect or offence number relating to a defect or offence that was found during the event.
- 23). Defect Description - A description of the defect or offence that was found.
- 24). Prohibition Category or Offence Band - The severity band of the defect or offence that was found (defect category 1-4 or 1S-4S for S mark defects, offence band 0-5 for driver or operator prosecution offence).
- 25). OCRS Points Value - The points allocated to that defect or offence band within OCRS.
- 26). Weighting Value to be Applied - The time weighting to be applied to those points based on the elapsed time since the defect or offence occurred.
- 27). Weighted Points - The final OCRS points to be applied (i.e. the OCRS points multiplied by the weighting value).
- 28). OCRS Event Trigger Period in Days - If this is a trigger event this shows how many days the trigger will last. If this is blank then this is not a trigger event.
- 29). OCRS Event Trigger End Date - If this is a trigger event this indicates the date on which the trigger will expire.
- 30). Type of Event - This indicates if the Event was positive (i.e. no defects/offences were recorded) or negative (offences/defects were recorded).
- 31). Score Date - This shows the date that the OCRS score was calculated (please note that this will be the day before the score becomes active).
- 32). Roadworthiness Band - This shows the roadworthiness OCRS band at the time of the score calculation.
- 33). Traffic Band - This shows the traffic OCRS band at the time of the score calculation.
